1,100+
related degrees
conferred annually

"The Pittsburgh region is ideal for Philips' design and manufacturing of sleep and respiratory care-focused products. Its manufacturing expertise is only enhanced by robust life sciences R&D and related collaborations, which extend opportunities for partnerships to Philips. Such assets - coupled with the region's dedicated, enthusiastic workforce - have helped to make Philips a worldwide leader in health technology."

- David Butler, VP of Global Operations and Supply Chain, Philips Sleep & Respiratory Care
